

Aqua-Aerobic Customer Response Center now open 24/7

LOVES PARK, Ill. — The Aqua-Aerobic Customer Response Center is there for you from process start-up to aftermarket products and services, providing complete plant assistance with a professional staff. Whether it's an emergency requiring a service technician on-site, a replacement part shipped overnight, or technical support via phone or email, Aqua-Aerobic's national network of service staff and product distributors ensures prompt and reliable assistance when you need it.

The Aqua-Aerobic Customer Response Center is now open 24/7.

Additional services offered include preventative maintenance programs, short-term cloth media filter rentals, an equipment buy-back program, operator training and plant wellness evaluations.

For more information on these and other Customer Response Center programs, visit www.aquacustomers4life.com or call (815) 654-2501.

BrandSafway wins national innovation award

KENNESAW, Ga. — BrandSafway has been named the 2018 winner of the Innovation Award from the Scaffold and Access Industry Association (SAIA). BrandSafway received the award during the 2018 SAIA Annual Convention and Exposition for a uniquely engineered solution designed for the Reimagine 900 revitalization project at 900 North Michigan Ave. on Chicago's Magnificent Mile.

The access solution designed for the project centered around BrandSafway's Spider® suspended swing stages and the HAKI® aluminum truss system. BrandSafway is the primary distributor of HAKI products in North America.

BrandSafway worked with building engineers to determine safe load limits and to develop a solution that could be put together quickly, completing assembly a week-and-a-half faster than expected to finish the project on time.

For more information, visit

www.brandsafway.com or call (800) 558-4772.

Sun Coast earns 'Gold Level' in Workplace Health Achievement Index

HOUSTON — The American Heart Association (AHA) has recognized Sun Coast Resources Inc. as one of the top companies in the U.S. taking important steps to build a culture of health in the workplace. The AHA has acknowledged Sun Coast as a "Gold Level" in its 2018 Workplace Health Achievement Index for the worksite size category of 750-4,999 employees. The Gold Level distinguishes Sun Coast as a company dedicated to building healthier lives free of cardiovascular diseases and stroke by applying evidence-based approaches to improve employees' overall health.

TEEX to provide training for US&R

COLLEGE STATION, Texas — The Texas A&M Engineering Extension Service (TEEX) has been selected by FEMA to develop and deliver curriculum for Urban Search and Rescue (US&R) training and exercises for 5,800 members of the National US&R Response System.

The Texas A&M Engineering Extension Service has been selected by FEMA to develop and deliver curriculum for Urban Search and Rescue training and exercises.

TEEX will design and facilitate exercises for the 28 FEMA-sanctioned teams and maintain the US&R Emergency Support Function 9 (ESF-9) Training Portal. Training and exercises will be held at various locations across the U.S., including a premier property known as Disaster City® in College Station, Texas. It is a 52-acre complex that features full-scale, collapsible structures

designed to simulate various levels of disaster and wreckage that can be customized for the specific training needs of any group.

For more information, visit www.teex.org or call (979) 458-6805.

Merichem recognized by Union Pacific for safe shipping practices

OMAHA, Neb. — Merichem Caustic Services (MCS) recently received the Union Pacific Safety Pinnacle Award. MCS received this award as a result of safe shipping practices and zero non-accident releases of regulated hazardous materials shipments in 2017. Union Pacific said, "This is an outstanding achievement, demonstrating excellent performance and commitment to the safe transportation of hazardous material."

For more information, visit www.merichem.com or call (713) 428-5000.

Wyatt wins Golden Triangle Business Roundtable safety award

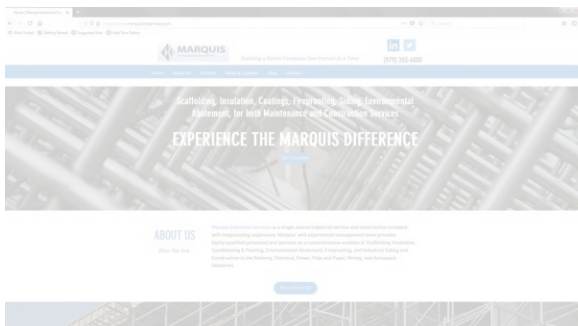

HOUSTON — At the 27th Annual Golden Triangle Business Roundtable safety awards banquet, Wyatt was the winner in the "Large Contractor" category for its safety performance at Motiva Enterprises' Port Arthur, Texas, facility in 2017.

"Congratulations go out to our project teams for their leadership in establishing a culture by promoting safe work practices and to the employees who sustained superior performance at this location," said Wyatt Director of Safety Danny Vara.

Republic Services 2017 Sustainability Report details achievements

PHOENIX — Republic Services Inc. released its 2017 Sustainability Report, demonstrating the company's commitment to providing regular reporting on its sustainability initiatives and progress. The report details the company's sustainability strategy and achievement of its time-bound goals set in 2014.

- Energy: Develop at least two landfill gas-to-energy projects per year through 2018. This goal was achieved in 2017.

- Recycled commodities: Add an additional 150,000 tons or more per year of recycling capacity through 2018. This goal was achieved in 2017.

- Fleet: Reduce absolute fleet emissions by 3 percent from direct operational impacts (Scope 1 emissions) through 2018. This goal was achieved in 2017.

- Safety: Reduce OSHA recordable rates by 7 percent year-over-year. This goal is on track.

For more information or to download the latest sustainability reports, visit www.RepublicServices.com/Sustainability.

Jacobs selected for program management consultancy in Benin

DALLAS — Jacobs Engineering Group Inc., through its joint venture, Jacobs Engineering S.A. (JESA), has been awarded a four-year contract from the Millennium Challenge Account-Bénin II (MCA-Benin II) for the implementation of the Benin Power Compact, which will strengthen the national electricity infrastructure of the country when completed in 2022. Jacobs' scope of work includes engineering, as well as project and construction management, for four photovoltaic solar power plants, new transmission lines, new substations and a dispatch center.
