

# SCAFFOLDING AND ACCESS

## Rental Solutions

### CupLok®

- › High-strength steel tubing offers maximum load capabilities
- › Designed for the most demanding trades and applications
- › Provides heavy-duty work platforms
- › Variety of bay lengths, from 1'-10" to 10'-0"
- › Additional components available

### Systems™ Scaffold

- › Unique ring set design accepts up to eight horizontal members
- › 360-degree ring sets space 21" apart fits any shape
- › Knee-out brackets allow assembly to increase or decrease as needed
- › Adaptable to almost any structure

### SafLock System Scaffold®

- › Fast and easy to assemble
- › Quality-engineered components lock securely into rosettes
- › Each rosette holds up to eight connections
- › No loose fittings (nuts, bolts or clamps)
- › Erect a rigid platform virtually anywhere

### Sectional

- › High-strength 0.095" steel tubing
- › Tubing diameter on all legs 1.69"
- › Specially engineered coupling pins ease the assembly process
- › Full range of components available, including side brackets, guardrails, stairways, ladders, sidewalk canopy frames and more

# SCAFFOLDING AND ACCESS Rental Solutions

**BRAND SAFWAY®**

## SafMax® Frame System

- › No inside cross-braces
- › Full access to work surfaces
- › Increased headroom
- › Internal ladder and hatch design
- › Fully planked, flush decking
- › Wider deck and ladder width
- › Mobile work environment

## Tube & Clamp

- › Clamps compatible with BrandSafway standard scaffold frames
- › Only four basic parts needed for assembly
- › Clamps fasten to both 1.69" and 1.9" outer diameter tubing
- › Durable and lightweight yet high-strength steel tubing

## QuikDeck® Suspended Access System

- › Components can be easily handled by one person
- › Requires no special tools or skills to assemble
- › Load capacities range from 25 psf to more than 75 psf
- › Can be built in the air or on the ground and then hoisted into position

## HAKI® Mobile/Stationery Platforms

- › Span large areas
- › Efficient and reliable
- › Modular components
- › Lightweight aluminum trusses provide great strength in relation to weight

## Rope Access

- › Saves time and costs
- › Can access hard-to-reach areas
- › Fewer at height exposure hours
- › Reduces set up and dismantle times
- › Decreases downtime
- › Skilled multicraft teams
- › Minimal disruption due to smaller footprint
