

# Quik-X™ & Quik-X PRO™

Advanced refractory  
anchoring systems

BrandSafway's Quik-X & Quik-X PRO Refractory Anchoring Systems require fewer welds and are designed for use in the cyclones and air grids of Fluid Catalytic Cracking Units (FCCUs). Our innovative anchor systems increase productivity, reinforce refractories against cracking and can withstand extreme temperatures. Ideal for use in chemical plants, refineries and more.

At Work For You®

# Innovation – At Work for You®

## The next evolution in anchoring systems is here!

BrandSafway's Quik-X™ and Quik-X PRO™ are the best anchoring systems on the market today. Designed with versatility, productivity and durability in mind. Improve the safety, speed, strength and accuracy of your refractory work.

### Choose the refractory anchoring system to meet your unique needs

#### Advantages

	Quik-X	Quik-X Pro
Safer & more efficient	✓	✓
Fewer welds (16 welds/sq. ft.) minimize exposure to hexavalent chromium	✓	✓
Less metal in refractory lining	✓	✓
<b>Stronger</b>		
Durable independent cells and welded studs	✓	✓
Reinforce refractories against cracking	✓	✓
Less than .5% failure rate when combined with BrandTech® Precision Welding	✓	✓
Improves U.U.S. (Ultimate Unit Stress) up to 125,000 psi/weld	✓	✓
<b>Faster (70% faster than other hex alternatives)</b>		
Up to 10x faster than traditional hex mesh	✓	✓
44% fewer welds than stud welding technology	✓	✓
<b>Versatile</b>		
Dual metallurgy anchors available – match anchor stud to shell		✓
Change layout designs with ease	✓	✓
<b>Additional features</b>		
Compatible with various stud lengths and alloy types		✓
Materials sourced in the U.S.	✓	✓
Manufactured in the U.S. for faster delivery		✓

### Designed with Versatility in Mind

With Quik-X and Quik-X PRO, the ability to change layout designs is a game-changer. Previously in situations with heavy coking and high flow, channeling between the lining of the traditional layout led to early degradation of the refractory. Quik-X and Quik-X PRO have tabbed ears, which can go from a general lined design to an overlay, preventing channeling between anchors.

### Multiservice Solutions

Trust BrandSafway with all phases of refractory construction and maintenance, including comprehensive multiservice solutions for:

- › Fluid Catalytic Cracking Units (FCCUs)
- › Reformers
- › Hydrocrackers
- › Crude Units
- › Thermal Reactors
- › Sulfur Recovery Units
- › Boiler Units

*Quik-X is patented and Quik-X PRO is patent-pending.*

See how BrandSafway's Quik-X and Quik-X PRO refractory anchoring systems can improve your welding efficiency and overall project productivity. For more information contact us at [BrandTech@BrandSafway.com](mailto:BrandTech@BrandSafway.com).

BrandSafway provides access and industrial service solutions with turnkey installation, engineering support and safety training.
