BrandTech™ Precision Welding lets two people do the work of 16 stick welders

The data proves it. With BrandTech Precision Welding, our computer-driven stud-welding technology, a two-person crew can complete as many welds in a 12-hour shift as a 16-person crew using conventional techniques. That’s two people, 2,600 welds per shift and only a 0.5% error rate.

**Advantages**

› Easy-to-use touchpad control panel
› Modular design
› Easy to set up, rig and operate
› Fully programmable
› Total control of variables
› Best available technology
› Set all welding parameters with ease
› Proven results for shop and field applications
› Gun, computer and software identity parameters met
› Operate one or two welding guns simultaneously
› Manufactured in the United States with USA-made parts
Improved Quality
“Increased speed can mean reduced quality and safety, but not with BrandTech. Our precision welder gives operators total control of welding variables, allowing them to weld onto existing thin plates and the ability to reach into tight and congested areas without damaging existing structures.”
– Eduardo Almeida, Director of Technology for Industrial Specialists, by BrandSafway

Delivering More Value While Reducing Time and Cost
› Consistent quality
› Better reach into tight and congested areas
› Reduced amounts of hexavalent chromium and exposure risk
› Higher productivity than conventional stick welding and/or current studs
› Wide range of setting controls, enable welding on existing thin plate weld on, around or behind tubes and other obstructions, reducing risk of damage
› Can be used with unusual metals, such as Inconel 601, 1.25 Chromium and 253MA

Average welds per project: 20,000
Number of shifts needed:
Conventional* - 40
Rapid Welding ** - 8
*2 welder - stick welding **2 BRANDTECH-W. Operator

Industrial Specialists is a member of the American Welding Society (AWS)

See how BrandTech Precision Welding can dramatically cut your labor costs in refractory, insulation and fireproofing services while improving speed and accuracy. Contact us today at 800 558 4772 or by filling out our contact us form at www.BrandSafway.com/contacts.

BrandSafway offers the broadest range of industrial services and proprietary solutions.
