And at least 2X faster installation

The numbers don’t lie. With the Quik-X™ Refractory Anchoring System, only 15 welds are needed where other anchoring systems require at least 27. And it was designed specifically for use in the cyclones and air grids of Fluid Catalytic Cracking Units (FCCUs). An innovative new product to increase productivity, the Quik-X System reinforces refractories against cracking and can withstand the high temperatures used to crack petroleum crude oils into more valuable gasoline, olefinic gases and other products.
“Quik-X was modeled after anchoring systems that have been used for the past 50 years to keep the design familiar and make it easy to use.”

– Eduardo Almeida, Director of Innovation, Research & Development for Industrial Specialists by BrandSafway

Advantages

› An alternative to traditional “hex-mesh,” the half-hexagon-shaped, castable anchor grid can be manufactured with a variety of alloy types ranging from carbon steel to exotic stainless steels.
› Works well with both existing and new welding technologies like BrandTech™ Precision Welding
› Modeled after existing anchoring systems, so it is familiar and easy to use
› Can be used with MIG (metal inert gas), TIG (tungsten inert gas) or stick welding (also referred to as shielded metal arc welding or SMAW)
› Reduces metal volume by 6.29% psf in refractory linings, compared to other single-cell anchors
› Provides a minimum of 7.17% surface area increase psf for improved anchoring grip

Multiservice Solutions

In addition to Quik-X, BrandSafway offers services for all phases of refractory construction and provides comprehensive multiservice solutions for:

› Fluid Catalytic Cracking Units (FCCUs)
› Reformers
› Hydrocrackers
› Crude Units
› Thermal Reactors
› Sulfur Recovery Units
› Boiler Units
› Tank Maintenance Services

See how the Quik-X Refractory Anchoring System can improve your welding efficiency and overall project productivity. Contact us today at 800 558 4772 or by filling out our contact us form at www.BrandSafway.com/contacts.

BrandSafway provides a full range of access and industrial services.
