

RAPID-EPS®

Total edge protection with ease

- › Fall protection
- › Staircases
- › Walkways
- › Elevator solutions

More than just a barrier, Rapid-EPS was engineered with safety, efficiency and longevity in mind. The highly configurable Rapid-EPS edge protection system installs quickly and easily to prevent falls, restrict access and protect assets.

Set up and dismantle 10x faster than traditional edge-protection methods

Rapid-EPS's innovative design offers a lightweight, yet secure edge protection system that will not damage concrete and can be installed easily by one person – no tools required.

Features

- › **Rapid panels** – Durable, lightweight and available in full and half-panel sizes.
- › **Free-standing concrete frame solutions** – User friendly systems that require zero penetration to the concrete slab. Ideal for rooftop areas as well as demarcation.
- › **Staircase solutions** – Configurable solutions with telescopic stair rails and fail-safe fittings that secure challenging areas, such as staircases and walkways.
- › **Elevator protection** – Protects multiple core openings with a single, key-activated locking gate.
- › **Extended height, full containment edge protection** – Ideal for busy city centers. Protects workers and pedestrians from airborne materials, debris and more.

Advantages

- › Quick and easy installation
- › OSHA 1926.502 compliant
- › Configurable, secure, efficient and safe
- › Can be installed by one person
- › No tools or drilling
- › Folds flat for storage and transportation
- › Will not penetrate or damage concrete
- › No skilled labor required
