

Power Generation Solutions

For boiler maintenance, shutdowns,
capital work & emergencies

› Fluor Jack County Unit-2 Power Plant

BrandSafway provided state-of-the-art surface preparation and coatings applications for over 300,000 square feet of the facility in eight months, while delivering more than 30,000 accident-free labor hours.

› BrandSafway delivers powerful multiservice solutions.

We have the resources and depth of expertise to offer the best and safest products and services for your power-related maintenance, shutdowns, and capital and emergency projects. With the broadest solutions portfolio in the industry, and our network of local talent and expertise, you can count on BrandSafway to be a powerful partner – safely increasing productivity at the lowest total installed cost.

› Exelon-Byron Generating Station

“We know BrandSafway has the right equipment, and we know they have the (engineering) services we need in an environment like this.” – Project Manager

› Power Generation Solutions

Access Solutions Throughout the Plant

- › Supported scaffold
- › Suspended systems
- › Hoists & lifts

Boilers

- › Insulation removal & installation
- › Abatement
- › Refractory

Containment Areas

- › Joint systems
- › Composite repairs

Cooling Towers

- › Surface preparation
- › Carpentry

Flares/Vents/Stacks

- › Coatings
- › Composite repairs

Forming & Shoring

- › Aluma Systems
- › Wall formwork
- › Slab formwork
- › Shoring solutions
- › Climbing formwork

General Facilities

- › Concrete formwork
- › Lead abatement

HRSG

- › Refractory
- › Field machining
- › Bolt tensioning

Piping Networks/Systems

- › Abatement
- › Thermal protection
- › Thermal spray & metallizing
- › Cathodic protection
- › Bolt torquing & tensioning
- › Leak detection & repair
- › Hot taps, line stops
- › Field machining
- › Composite repairs
- › Energy & thermography audits
- › Corrosion assessments & CUI programs

Turbines/Generators

- › Thermal protection
- › Leak detection & repair
- › Hot taps & line stops
- › Field machining foundations

Storage Tanks

- › Coatings & tank lining
- › Surface preparation
- › Cathodic protection
- › Field machining
- › Bolt torquing & tensioning

✓ **Keephills Power Plant Unit 3**

BrandSafway completed insulation services for over 70,632 square feet of the plant in nine months, with more than 58,000 accident-free labor hours.

Brand|Net[®]

› For improved Engineering, Estimating, Planning and Execution

Advanced engineering and optimized access are keys to increasing safety, as well as saving time and money. BrandNet, our proprietary software application, utilizes BrandSafway's 100-plus years of access and scaffold experience along with our expertise in engineering to help you increase productivity and lower your total installed cost with:

- › 3D design
- › Project management
- › Planning/Scheduling
- › Geolocation support
- › Estimating
- › Project controls
- › Materials management
- › Customized reporting

BrandNet, together with our team of engineers – the largest and most experienced in the industry – deliver a return on your investment with improved project baselines, advanced scaffold design for safety, reusability and reduced modifications, better materials management, and enhanced visual work packages for field execution.
