

Industrial Coatings

Delivering Unparalleled Expertise

BRAND SAFWAY®

At Work For You™

› BrandSafway has it covered!

With our extensive experience, award-winning environmental health and safety (EHS) record, quality control program and cost-effective options, BrandSafway is the premier provider of industrial coatings services. We provide clients with highly skilled NCCER (The National Center for Construction Education and Research) certified craft professionals, supported by 35 NACE-trained and certified inspectors. BrandSafway's team of well-trained personnel consists of more than 1,700 painters and supervisors who deliver safe and superior services.

Cement/Mud Bulk Plant – Texas, USA

“Our experienced team successfully performed sandblasting and applied polyurethane coatings system, which included four coats, to the entire plant with zero lost time incurred.”

– General Manager

Gulf Coast Chemical Facility

This project required BrandSafway to work simultaneously on two towers, each more than 250 feet tall, during a 28-day outage. The team completed this highly critical project on time, within budget, and with zero safety incidents.

› Industrial Coatings Services

Our painters and supervisors, who have vast coatings and painting experience, use cutting-edge technology to provide unparalleled painting and coatings services.

- › Maintenance outages, turnarounds and new construction
- › Pipelines and terminals
- › Off-site shop facilities
- › Asset management programs
- › Automated surface preparation
- › Industrial-quality painting
- › Thermal spray applications
- › Rhino liner applications
- › Internal coatings and liners
- › Corrosion under insulation (CUI) programs

Abrasive Blasting

- › Robotic blasting
- › Water washing
- › Water jetting and UHP
- › High-Frequency Induction Stripping
- › Mineral abrasive blasting

Surface Preparation

- › Bicarbonate
- › Chemical cleaning
- › Hand tool cleaning
- › Hydroblasting
- › Power tool cleaning
- › Power washing
- › Scarifying
- › Solvent cleaning
- › Steel grit recycling
- › Wheelabrator
- › Blastrac machines
- › Water injection

Ground Fuel Storage Tanks – Michigan, USA

BrandSafway completed a major coatings under insulation (CUI) project involving two 250+ foot towers scheduled to be worked on simultaneously. Full encapsulation and containment were required. The project was completed on time, within budget and with zero safety incidents.

Power Plant – Texas, USA

BrandSafway completed surface preparation and coatings services for over 300,000 square feet in eight months, delivering 30,000 accident free labor hours and exceeded the customer's expectations for this challenging project.

› For Improved Engineering, Estimating, Planning and Execution

BrandNet®

Advanced engineering and optimized access are keys to increasing safety, as well as saving time and money. BrandNet, our proprietary software application, utilizes BrandSafway's 100-plus years of access and scaffold experience along with our expertise in engineering to help you increase productivity and lower your total installed cost with:

- › 3D design
- › Project management
- › Planning/Scheduling
- › Geolocation support
- › Estimating
- › Project controls
- › Materials management
- › Customized reporting

BrandNet and our team of engineers — the largest and most experienced team in the industry — deliver a return on your investment with improved project baselines, advanced scaffold design for safety, reusability and reduced modifications, better materials management, and enhanced visual work packages for field execution.

› Ready to Deliver
