

Brand|Net[®]

Scaffold design, estimating,
planning and management

› Industry-Leading Program for Access Optimization

Optimizing access is key to saving time and money, while also increasing safety. BrandNet provides design, estimating and planning services to streamline your industrial access needs, from engineering through project execution.

BrandNet, our proprietary software application, utilizes BrandSafway's 100-plus years of access and scaffold experience along with our expertise in industry best practices to help you increase productivity.

BrandNet's core service offerings cover the key access management functions, including:

- › Design 2D/3D
- › Estimating
- › Planning/scheduling
- › Materials management
- › Project management
- › Project controls
- › Geolocation support
- › Customized reporting

Using BrandNet to develop an optimized access approach, you will realize a return on your investment through:

- › Improved project baselines
- › Advanced scaffold design for safety, reusability and reduced modifications
- › Better materials management
- › Enhanced visual work packages for better field execution

› Design

Ease of Use

BrandNet's simplified workflow allows our project personnel to quickly and easily integrate the program into your project.

Access Design

- › Scalable design using proprietary access products
- › Standard and custom configurations for the most complex design requirements
- › CAD-driven engine provides 2D and 3D views

Estimating Expertise

- › Unique custom estimates or industry-standard approaches
- › Fully customizable estimating module for labor, crews, equipment and other costs
- › 100-plus years of experience increasing productivity
- › General or contract-aligned estimates or budgets
- › Estimated outputs, including hours, costs and equipment data, facilitate project management and project control process

Materials Management

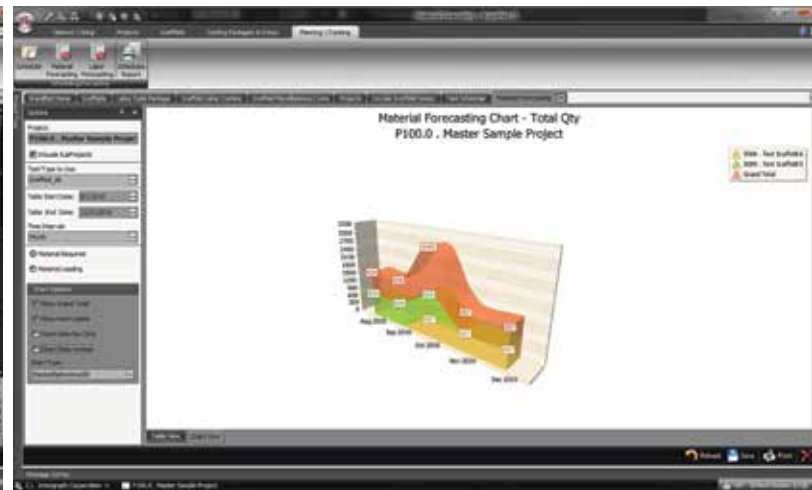

- › Per scaffold or per project
- › Piece counts and weights by part number for time-phased materials management and forecasting
- › Optimized inventory quantities

Project Life Cycle

- › Pre-FEED conceptual support
- › Stage-to-support scope development and improved project baselines
- › Planning and scheduling support
- › Resource management and master schedule integration via seamless exports to planning software
- › Integration with leading BIM tools for visual reviews and walkthroughs as well as data and metadata for integrated reviews
- › Validate scopes of work
- › Visual work packages for improved productivity of access crews

Management and Labor

With a commitment to safety first, Brand Industrial Services, known as BrandSafway, was created when Brand Energy and Infrastructure Services and Safway Group combined in 2017. BrandSafway provides the broadest range of solutions, with the greatest depth of expertise, to the industrial, commercial and infrastructure markets. With its extensive service offerings — scaffolding and access, insulation, coatings, specialty services, and forming and shoring — BrandSafway supports customers' maintenance, renovation, new construction and expansion plans.
