

Offshore & Marine Solutions

For rigs, platforms, ships & shipyards

BRAND SAFWAY™

➤ **Offshore Natural Gas Platform**
The QuikDeck® Suspended Access System was used on a \$70 million project for the refurbishment of a natural gas platform. QuikDeck delivered increased safety and provided complete protection of the pristine environment off the coast of New Zealand.

➤ BrandSafway has you covered.

Tight budgets. Critical deadlines. Demanding service requirements. In offshore and marine environments, you need an experienced and knowledgeable partner. BrandSafway, together with BrandSafway companies Venko and Waveland, provide end-to-end offshore and marine expertise and proprietary brands such as the QuikDeck® Suspended Access System and Spider® Powered Suspended Access Solutions. From access and scaffolding to fireproofing, insulation, cathodic protection and coatings, BrandSafway delivers safe, high-performing solutions.

⤴ Drill Ship

“I have used Spider equipment for every rig I’ve been assigned to with tremendous success. My first job offshore was on a spy ship. We were raising a sunken Russian submarine and had two Spider baskets on board for that mission; Spider is a great product.” – Barge Captain

⤴ Diving Chamber Fleet

BrandSafway used a specialized blasting, insulation and coating system for a fleet of diving chambers. The exterior was abrasive blasted, coated with polyurea as an insulating barrier and finished with a polyurethane system. A non-toxic protective lining was used on the interior to keep it safe for divers.

> Offshore and Marine Solutions

- > Access
- > Scaffolding
- > Abrasive blasting
- > Surface preparation
- > Coatings
- > Insulation
- > Fireproofing
- > Cathodic protection
- > Project management
- > Safety programs/ training
- > Skilled local labor
- > Rope access
- > Specialty mechanical services

> **We are on call 24/7, and our local skilled labor is cross-trained to reduce POB (personnel on board).**

Unmatched suspended access

- > QuikDeck® Suspended Access System
- > Spider® Powered Suspended Access Solutions

Superior protection

- > HAKI® weather protection
- > Edge protection
- > Netting

Based in the Netherlands, with operations in the North Sea area, Venko specializes in the maintenance of coatings on steel structures – from offshore applications to civil projects and bridges throughout Europe.

A leading maintenance-based coatings company, Waveland provides services for large offshore platforms, deep-water and shallow-water assets, and pipeline transmission companies throughout the Gulf and off the coast of California.

Brand|Net[®]

› For improved Engineering, Estimating, Planning and Execution

Advanced engineering and optimized access are keys to increasing safety, as well as saving time and money. BrandNet, our proprietary software application, utilizes BrandSafway's 100-plus years of access and scaffold experience along with our expertise in engineering to help you increase productivity and lower your total installed cost with:

- › 3D design
- › Project management
- › Planning/Scheduling
- › Geolocation support
- › Estimating
- › Project controls
- › Materials management
- › Customized reporting

BrandNet, together with our team of engineers – the largest and most experienced in the industry – deliver a return on your investment with improved project baselines, advanced scaffold design for safety, reusability and reduced modifications, better materials management, and enhanced visual work packages for field execution.

› Ready to Deliver
