

Rope Access

Reaching new heights

› Let us help you reach higher

BrandSafway's specialized rope access teams provide the means to reach high elevations and otherwise inaccessible locations in a safe, proven and cost-effective way. Our rope access services can work as an independent solution, be used in combination with conventional access methods or complement a comprehensive and integrated multiservice plan. And as a member of the International Industrial Rope Access Trade Association (IRATA), with zero recordable incidents and over 100,000 hours on rope, you can be assured that safety is always first and foremost throughout every project.

Applications

- › Standby rescue
- › Insulation
- › Fireproofing
- › Coatings/Painting
- › Mechanical services
- › Refractory
- › NDT
- › Netting installations
- › Other specialty services

Advantages

- › Reduced equipment and labor costs
- › Shorter setup and dismantle time
- › Smaller jobsite footprint
- › Decreased exposure hours

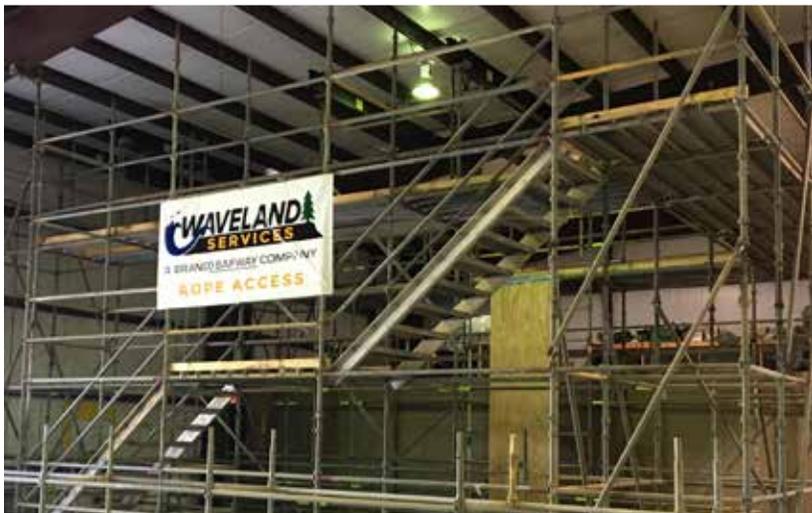

› Trained and Certified

Our rope access technicians are highly trained and fully certified by the Industrial Rope Access Trade Association. IRATA is the leading international rope access authority and maintains the highest safety policies, procedures and standards. Regular audits and reporting are required to maintain our membership.

IRATA Levels I, II & III Training

Available at several of our North American training facilities.

- › Edmonton, Alberta Training Center
- › Eunice, Louisiana Training Center
- › Fort McMurray, Alberta Training Center

^ **Industrial and Commercial Experience**

BrandSafway has thousands of hours of rope access experience in industrial and commercial settings. By incorporating rope access into the delivery of insulation, painting, asbestos removal, leak detection services, mechanical services, and more, BrandSafway has been able to save customers time and money on the maintenance of industrial facilities.

^ **Offshore Expertise**

With over 10,000 hours of experience providing offshore rope access, BrandSafway has helped customers reduce schedules and costs on complex maintenance projects as well as inspections and rigging. Our expertise includes lifeboat winch change out, high-angle rescue, confined-space rescue, composite pipe repairs, mechanical hoisting and rigging.

BrandSafway offers the broadest range of access and industrial solutions.

With a commitment to safety first, Brand Industrial Services, known as BrandSafway, was created when Brand Energy and Infrastructure Services and Safway Group combined in 2017. BrandSafway provides the broadest range of solutions, with the greatest depth of expertise, to the industrial, commercial and infrastructure markets. With its extensive service offerings — scaffolding and access, insulation, coatings, specialty services, and forming and shoring — BrandSafway supports customers’ maintenance, renovation, new construction and expansion plans.
