

YOUR PHARMA INDUSTRIAL ADVANTAGE

BrandSafway is your Top Specialty Contractor for Every Phase of the Project Life Cycle

With a commitment to safety as its foremost value, BrandSafway delivers a full range of access solutions, insulation services, forming and shoring, fireproofing, and cathodic protection, with unmatched service from an expert workforce and a broad, global branch network.

Achieve speed, quality and cost efficiency with an all-in-one provider

Access Solutions

Fireproofing

Forming & Shoring

▶ PHARMA INDUSTRY SOLUTIONS

Construction & Maintenance

Achieve **speed, quality, and cost efficiency** with an All-In-One provider:

- ▶ Aerial Work Platforms
- ▶ QuikDeck® Suspended Access Systems
- ▶ Forming & Shoring
- ▶ Fireproofing
- ▶ Firestopping
- ▶ Heat Tracing
- ▶ Refractory Services
- ▶ Rope Access
- ▶ Cathodic Protection
- ▶ Siding & Roofing
- ▶ Innovative Digital Solutions

▶ BrandSafway is your Top Specialty Contractor for Every Phase of the Project Life Cycle

Key Highlights

Safe Access

- › Erecting modular, non-shedding scaffold systems during cleanroom buildout
- › Building custom scaffold towers for safe access to pipe racks and fans
- › Providing temporary scaffold or lift access for HEPA filter changeouts, ductwork cleaning, or ceiling tile replacement

Fireproofing

- › Applying fireproofing coatings to steel columns, beams and supports in cleanroom areas
- › Constructing fire-rated walls and ceilings around solvent handling
- › Conducting regular inspections and touch-ups of existing fireproofing systems

Forming & Shoring

- › Providing formwork for sub-structure concrete foundations
- › Building custom formwork for piling caps that distributes column load onto piles

PROVEN SAFETY RECORD

- › Strong history & culture of prioritizing safety, with **hundreds of safety awards** annually from industry associations.

CASE STUDIES

Delivering complex formwork for top European pharma plant

Provided premium architectural concrete under tight timelines

One stop shop: New production facility for infusion pumps and dialysis machines needed to be created in a tight timeline. Scope included production floors, cleanrooms, labs, offices and a parking structure. BrandSafway designed and fabricated custom forms wall-by-wall, delivering a complex, high-precision formwork system within the deadline.

Completed over 60,000 square meters of concrete surface work, including foundations, slabs, beams and columns in 16 months.

Enabling engineered access for complex GMP construction

Integrated planning reduced congestion and improved milestones

High-capacity access solutions: GMP drug substance development center required multi-elevation access as well as heavy equipment handling. BrandSafway engineered a 110k-lb. loading platform solution, enabling safe equipment staging and flow. By supporting structural, mechanical and process trades through scaffold access, congestion was reduced as well as proposed timing on project.

Leveraged consistent delivery to establish a repeatable execution model for future phases and campus initiatives.
